  - ⊕ Drill hole (w/ centerpunch alignment)
  - Alignment hole
  - ↖ Instruction locator

Sheetmetal Spacer Holes (x5):  
 Drill out these holes FIRST,  
 cutting template before drilling  
 will result in easily folded metal  
 while drilling.

Fender Sheetmetal Trimline  
 Once template is aligned on fender, mark the sheetmetal across this solid path,  
 then remove this template and begin cutting, connecting the areas between  
 the existing fastener tabs

All unshaded holes are for alignment to  
 existing flare fastener holes on body.  
 Cut out the template side. x9

Drill new 3/4" hole  
 for wiring harness outlet
