

REAR AUXILIARY LIGHT HARNESS

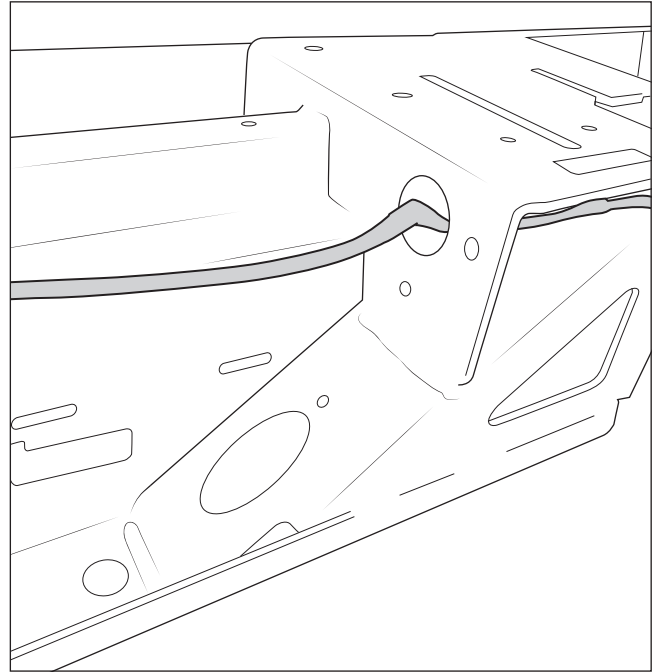

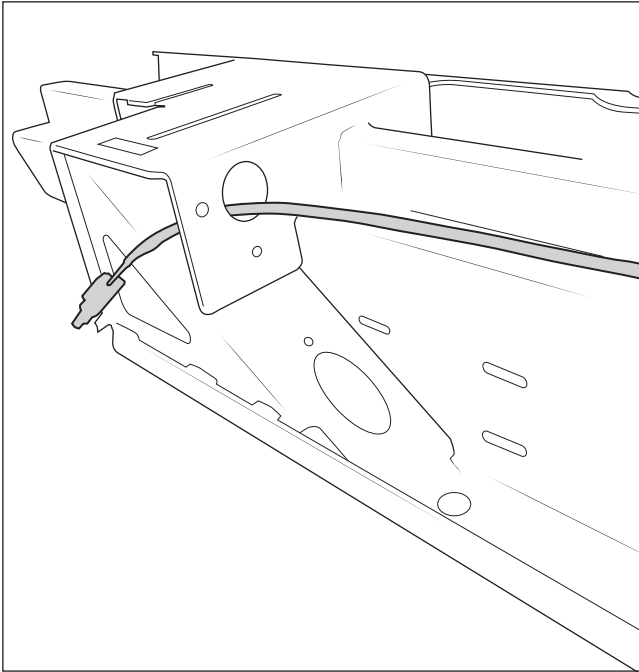

FOR AEV RAM REAR BUMPER

PLEASE READ ENTIRELY BEFORE YOU START

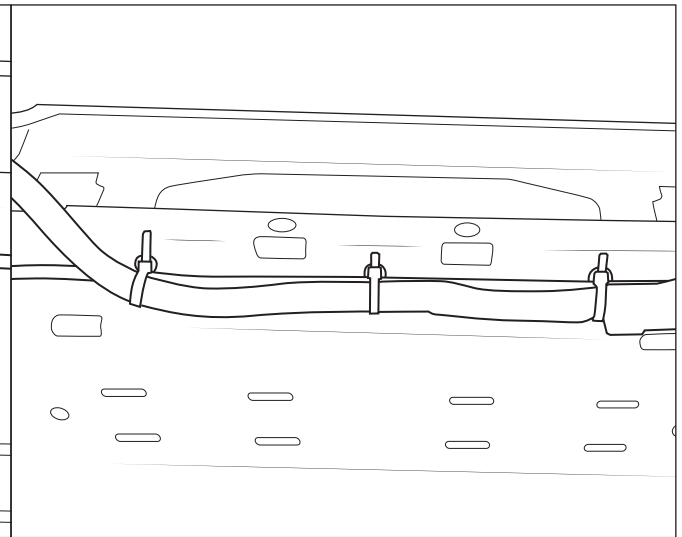

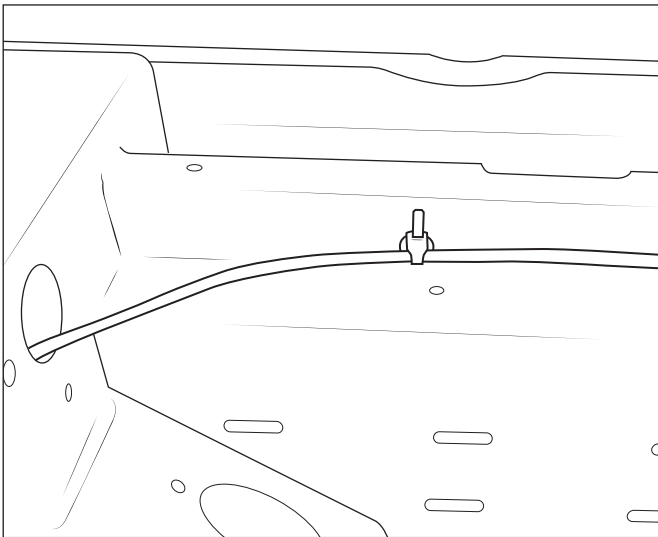

To guarantee a quality installation, we recommend reading these instructions thoroughly before beginning any work. These instructions assume a certain amount of mechanical ability and are not written nor intended for someone not familiar with auto repair.

1. Before installing the factory bumper harness into the AEV Rear Bumper, run the auxiliary harness through the AEV bumper shown below.

2. Using the provided zipties, mount the harness to the bumper at the provided locations. Simultaneously follow the installation guide of the rear bumper regarding the installation of the vehicle harness. Use the zipties to secure the light harness and factory harness together when applicable.

3. Mount the connector to the bumper using the two plugs on its back.
